basketball he started telling another student to suck my dick and can't nobody beat me in this school he then left the gym and I followed close behind. Then I came into my office for about 5 minutes and as I open my office door me as well as another CI witnessed Michael punch another student multiple times. We immediately intervened and put him in a restraint he kept saying let me up and we told him if he can be calm and safe we would eventually he did calm down so we let him go. I then took him to the nurses office so he could be treated because he was bleeding from a prior sore he had. He was treated and left the nurses office I followed closely behind because he said he wanted to get his bike and leave. So when we got to the class where his bike was his bike wasn't operable so he started asking what happened to his bike and left the class angry so he started looking for another student saying where is he I'm bout to kick his ass. I continued to follow him as he started looking in every classroom around the building. As we headed over to building 9 he looked in one of the classrooms and he saw the student he was looking for so the teacher opened the door he tried to rush in and go after the student but I was able to grab him and hold him up against the wall until the teacher could get the student out of the room. After the student left Michael wanted to leave the room so I let him out and he immediately tried to go after the other student but once again I subdued him and he got even more agitated. So I was talking to him he then appeared calm so as I got a little lax he ran towards me and I was unsuccessful when I tried to grab him. Michael ran through the chute after the other student but in the process knocked down another student. He spotted the the original student and started

██████ was with a group of students, when one ██████ called another a bitch. ██████ corrected the other student. The other student told him not to tell him what to do. ██████ then attacked the other student, hitting him numerous times, kneeing him, kicking him. Then turned on another student who was trying to get him to stop and began hitting him too. Then turned around and returned to hitting the original student. When CIs arrived, ██████ swung at this writer. Myself and Lander moved the student to the floor and implemented a SCIP 2 person supine. Moving to the TCI approved Supine when

██████ did not like it that a friend was being restrained by a Crisis Intervener on the floor of the hallway during dismissal. He attempted to stop the restraint physically. Two other staff pulled/pushed ██████ to a wall of the hallway where they physically attempted to keep him from continuing. ██████ struggled a great deal to get free from the holds of the two staff. They were all standing up with ██████ against the wall. ██████ was able to strike one of the staff members with a swing of the hand and also was able to hold his neck with his hand. A third staff member then assisted in bringing ██████ to the floor where all three staff members restrained ██████ until he was able to calm

hallway bathroom to let us know she needed to see us in her office and that she had received a call. He was upset and frustrated saying things like "c'mon man why do they have to search me again?" "I'm not letting them search me fuck that" However, he walked right to the nurses office and waited with me until she returned. A CI and a security officer entered either at the same time as the nurse or shortly after. As soon as [REDACTED] saw the CI and security officer he became escalated and started yelling in his seat. He continued to yell about not wanting to be searched again and that they haven't found anything and they need to stop going after him and searching him. He then punched the wall and began to clear paperwork off the small table in the nurses office and then he started to throw materials available to him in the room. Other staff in the room at the time started to clear out potential dangerous items and other students. CI and security were working on deescalating [REDACTED]. I believe he attempted to leave the nurses office and the door was open. Zeke tried to push through CI and security to leave. CI and security tried to contain him and keep him from leaving. I immediately closed the nurses door when [REDACTED], the CI, and security officer exited the room as to prevent any other damage or risk to staff and students. This entire time he was yelling outside the door. It was relayed to me after that he was restrained in the hallway outside of the nurses office and that he had spat in the security officers face. Once out of crisis, [REDACTED] returned to the nurses office, was searched and nothing was found other than a lighter and his backpack clearly smelled of weed. The nurse checked his vitals and then he was sent back to class to finish

Intervention: Physical Intervention (minutes)

█████ was upset and talking to his counselor in the hall. He began getting very loud and disrespectful. He was swearing at her and telling her to "suck his dick". CIs positioned themselves near █████ and attempted to get him to leave the conversation. █████ continued to be aggressive with staff. At that point a student walked past █████ and said something that made █████ last out at the student. He tried to get to that student to begin to fight him. CIs impeded his ability to get to that student and █████ tried to physically push through them. CIs began to restrain █████ and he continued to fight and be violent with them. At that point the SRO got involved and handcuffed █████

2020-2021 9/29/20 11:50 AM Intervention: Physical Intervention (minutes)

█████ and another student (PC) got into a verbal altercation in █████ class. That student followed █████ around breaking his respect area and then touched his face. I got in between the two and the other student was taken away. █████ then began to escalate and ended up in a restraint. We informed him we did not want to go there and he stated "I don't care. It'll be just like last time". We let him go a few times but each time he continued to make threats and be aggressive. Once we got him out the build he ran to side door where it was locked so he took his shoes off and threw them at our security guard (LG). He hit █████ about 6-8 time with shoes and threatened to beat him up . We stayed outside upon moms arrival.

During art class ■ kept making sexual comments and gestures.. when I asked to give me back the yardstick he took off of the back table he refused to do so. He made comments that sounded like he was calling someone a Homo or no homo and I told him to stop and that it was rude. I do not know who he was referring to. Then while he seemed to be working (and everyone else was) he suddenly opened up the back door to my classroom and pushed down paper, supplies and a bin of tempera paint on the ground that i had on my prep station, and when i asked him to stop he told me Fuck you or Fuck off and then he grabbed the yardstick and broke it. Support in room went after him but then came back to call for support when they could not find him.

Support arrived and he was banging on the glass to a classroom. As support tried to intervene, ■ became physically aggressive towards them, a standing hold was implemented. He was asked to walk to a calming room, he said he would, but then tried to push through staff, and was escorted to the TO room. ■ began kicking/punching staff
